Educational Program Topic Suggestions & Call for Speakers 22nd Annual 2018 NPPA Conference (August 20-23)

Help us fill out the Educational Program & speaker roster at the upcoming 22nd Annual 2018 NPPA Conference this August 21 through 23, at Bally's Las Vegas (with a 340B University event hosted by Apexus, Inc. being held the day before, on August 20). The NPPA Conference is **ALL** about the Pharmacy Purchasing profession and the information you need to expand your knowledge of this complex and important field, by considering becoming a presenter, and hopefully refresh the enthusiasm you have for your career. Or, perhaps you've seen or heard of an interesting and applicable pharmacy purchasing related speaker that you can recommend.

See below for NPPA's list for speaker participation details and suggested topics, for an idea of what we look for to fill our Educational Program (or please suggest your own for consideration, if not listed there, as long as it relates to Pharmacy Purchasing). This year's topics were taken from the following: ideas given in feedback by Pharmacy & GPO Attendees from last year's NPPA Conference; suggestions given by the NPPA Advisory Board; and then it includes the remaining topics not visited from the previous year's Conferences (or that still warrant further exploration). If there is a subject you feel you can speak about that is relevant for our group but is not on our current list of topic suggestions, please feel free to submit your new topic for consideration.

Or, perhaps you've seen or heard an interesting and applicable speaker elsewhere to recommend to us; or are a representative of a vendor company interested in speaking. However please first be aware that each lecture must be general and non-promotional to the speaker and/or the facility/company they represent. In addition as a general rule, speakers employed by drug or supply vendors that provide or have a hand in the services or products they offer, **can no longer** be considered for the ACPE-accredited CE that comes with NPPA Conference attendee registration, due to their strict requirements in that respect. This means that unless we have room in our program for a non-CE/optional session, we would not be able to fit such a lecture in our program.

2018 NPPA Conference Educational Program Topic Suggestions

- Drug Supply Chain Quality & Security Act (DSCSA) Information & Updates
- Biosimilar Drugs
- Joint Commission Rules & Helpful Information
- Hazardous Drug Handling Rules for Healthcare Settings (USP Chapter 800)
- Purchasing for Outpatient Pharmacies and/or Clinics
- Generic Drug Patent Opportunities, being more proactive in acquiring medications going off-patent
- Environmental Protection Agency (EPA) Rules & Updates - How They Affect Pharmacy

- Stress Management & Easy Relaxation/Meditation Exercises
- Career Improvement & Growth
- The Influenza Cycle and how it can affect the purchasing of the vaccines
- Pharmacy Dept. Newsletters: Including Buyer's Input
- How to be better prepared for Drug Shortages

To inquire about speaking, send email to: Speakers@PharmacyPurchasing.com with your preferred topic/s, and whether you're interested in presenting for 1 hour to 1.5 (at least 50 minutes for the hour session); or a shorter time length of 10/15 to 30/40 minutes. We will then discuss together a bit further, before sending our materials for you to review, complete, and return in order to be considered. If you prefer to discuss by phone initially, please send email first, to advise of the best times for one of us on NPPA's Speaker Committee to call as soon as we're able. Thank you for your interest!

Having Pharmacy Buyers presenting to their peers is something we always strive to find and fill in our program, and is a long-standing request from attendees. So consider presenting on a topic that you have experience in and passion about, and know that sharing your knowledge with your colleagues is always a rewarding experience!
